PROFILE

Entry-level software developer knowledgeable in designing and developing web applications. A versatile and professional software graduate from IIE Varsity College with a commitment to developing innovative and creative software solutions. Proficient in an assortment of technologies, including C#, JavaScript, Python, HTML5, CSS and MS SQL Server. Able to effectively self-manage during independent projects, as well as collaborate in a team setting. Actively looking for a role with a fast-paced and ambitious company that can offer project based learning

WORK EXPERIENCE

Freelance Web Developer

Hartbeespoort

Developed a website for a local karate institute which showcases the services they offer and provides ways to get into contact with them through various social media platforms.

PROJECTS

Word Of The Day Generator

A project I developed to practice the use of APIs for data retrieval

Password Generator

A python program I developed that generates a random password including letters, digits and special characters
